

Fontana, California, USA

PLANT CAPABILITIES SHEET

FEATURES AND BENEFITS

Bredero Shaw's Fontana, California facility is located adjacent to the only active ERW pipe mill on the west coast. This relationship with the pipe mill reduces overall project transportation costs as pipe is easily transported from the pipe finishing process to the coating plant. With this reduced handling requirements for pipe, repair costs due to damage from handling and storage are minimized.

The Fontana facility is the only facility in the United States that offers a broad product line that includes Fusion Bonded Epoxy, Pritec, 3LPE and 3LPP on pipe up to 42" in diameter. This provides a one-stop center to efficiently manage and deliver multiple pipe coating projects.

Anti-Corrosion Coatings

MANUFACTURED PRODUCTS	DIAMETER mm (")		LENGTH m (')	
	MIN.	MAX.	MIN.	MAX.
3LPP: Three Layer Polypropylene Coating	114 (4.5)	1066 (42)	12 (40)	24.4 (80)
3LPE: Three Layer Polyethylene Coating	114 (4.5)	1066 (42)	12 (40)	24.4 (80)
FBE: Fusion Bonded Epoxy Powder Coating	114 (4.5)	1066 (42)	25 (82)	24.4 (80)
Dual Layer FBE: Dual Layer Fusion Bonded Epoxy Powder Coating	114 (4.5)	1066 (42)	25 (82)	24.4 (80)
PRITEC®: Multi-Layer PE Coating	114 (4.5)	1372 (54)	12 (40)	24.4 (80)
ZapTec™: FBE and ARO	114 (4.5)	1219 (48)	10 (32)	24.4 (80)

HEALTH & SAFETY

Bredero Shaw is committed to providing a safe and healthy workplace and ensuring that our business activities are conducted in a manner that protects the environment. It is our objective to achieve an Incident and Injury Free workplace, where everyone recognizes that by risking incident or injury, they are putting in jeopardy what they value and those they care for.

BREDERO SHAW: THE GLOBAL LEADER IN PIPE COATING SOLUTIONS

Bredero Shaw is the world leader in pipe coating solutions, with more than 75 years of experience, over 27 global pipe coating facilities and the largest team of technical and service specialists in the business. Bredero Shaw offers technologically advanced solutions for anti-corrosion coatings, protective and weight coatings, thermal flow assurance coatings, internal coatings, custom coatings and field joints for both onshore and offshore applications. This broad range of products and services provides Bredero Shaw with the unique capability to service the full spectrum of pipeline protection and flow assurance requirements. Consult your Bredero Shaw representative for your unique project requirements.

The information contained herein is indicative of the types of coatings provided by Bredero Shaw, and is not intended to be a guarantee that a particular coating will be suitable for a given application. Since many unique environmental, operating, and design conditions must be considered, the user shall determine the suitability of the coating for the intended use and assume all the risks and liabilities in connection therewith. Bredero Shaw's liability is stated in our standard conditions of sale.
