BREDERO SHAW

A SHAWCOR COMPANY

the GLOBAL LEADER in pipe coating solutions.

OPERATIONAL LEADERSHIP

Bredero Shaw is the global leader in pipe coating solutions. The company has the most extensive network of strategically located pipe coating facilities around the globe. In each of 27 plants, the company has the experience, essential contacts and detailed knowledge of the business culture and conditions unique to each country. This knowledge and familiarity with local practices ensures efficient access to material and logistics solutions. Bredero Shaw's plant network includes the world's largest pipe coating plant, strategically located in Malaysia, a technologically advanced facility in Norway, and many mobile facilities that can be quickly established in remote locations to meet client needs. Over 250,000 kms of pipelines throughout the world have been protected by Bredero Shaw's global network of plants.

QUALITY ASSURANCE

Bredero Shaw maintains a Quality Management System that conforms to ISO 9001:2000. The company is dedicated to the continuous improvement of the Quality Management System ensuring that all employees understand, implement and sustain the system. All plants have integrated quality control systems to ensure compliance with client specifications and industry standards.

The major activities carried out within the quality group are:

- Incoming raw material inspection and testing
- Incoming inspection of bare pipe
- Constant quality inspection of coating application and auditing of production systems to ensure conformance with client's specifications
- Testing of finished product
- Pipe tracking from receipt to delivery
- Maintenance, continuous development and improvement of all coating processes and systems.

HEALTH, SAFETY & ENVIRONMENT

Bredero Shaw is committed to providing a safe and healthy workplace that protects employees, clients and the environment. All business activities are conducted in a manner that protects the environment.

The company actively promotes an Injury and Incident Free (IIF) workplace and a robust Health, Safety and Environmental (HSE) management system that is globally consistent and meets or exceeds all international standards. It can be considered best-in-class. The HSE management system is fully integrated through engineering controls, procedures and behaviour.

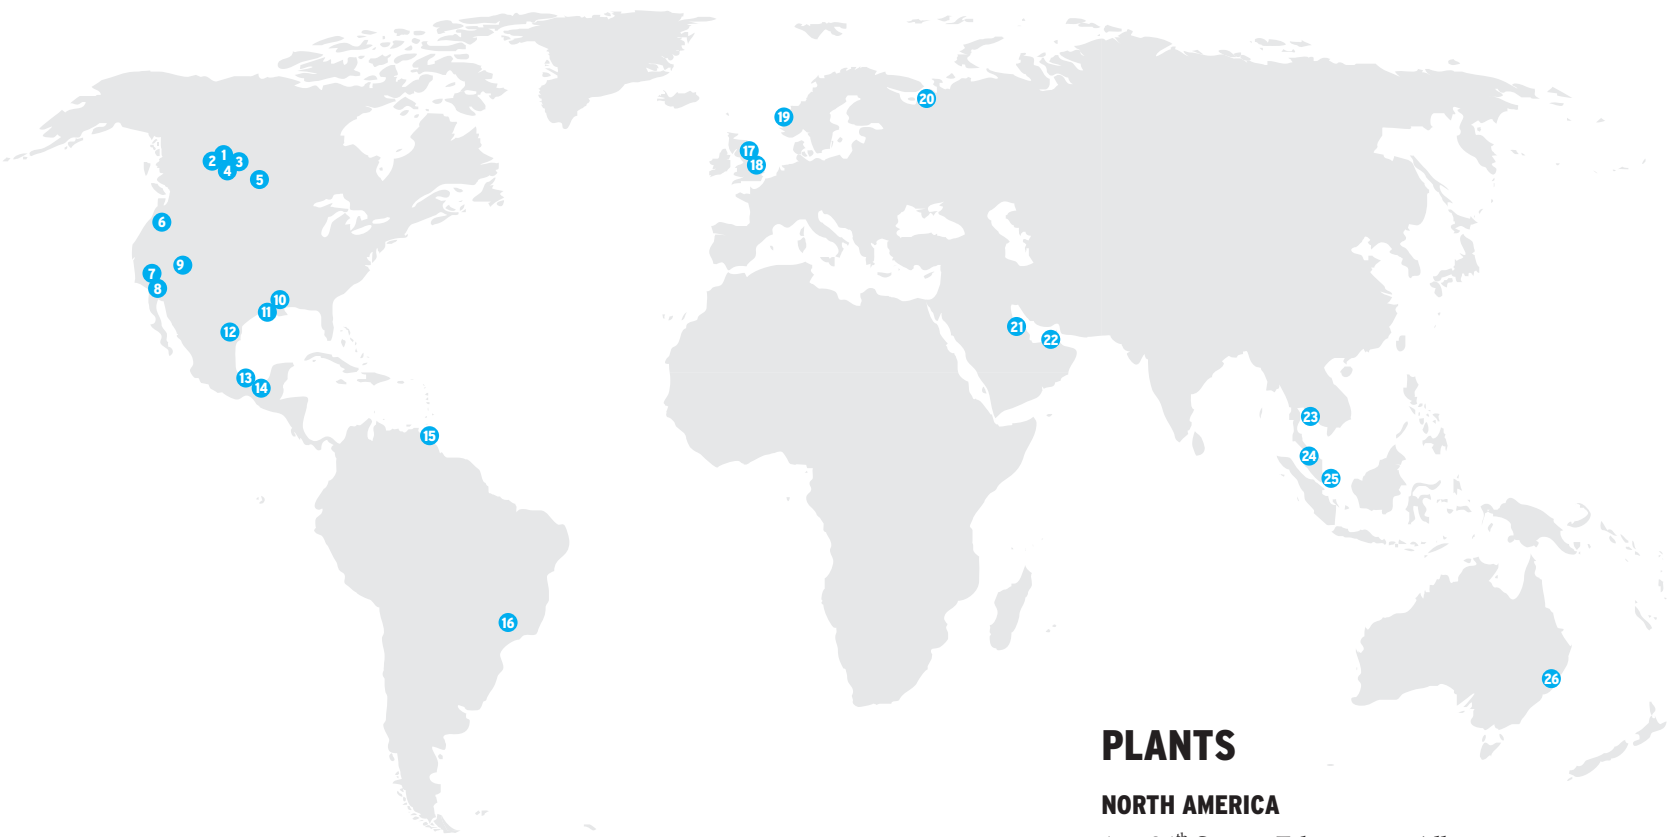

The IIF policy was established on the basis that concern for the health and safety of employees and guardianship of the environment are essential to the successful conduct and future growth of the company and its clients.

COATING SOLUTIONS BY PLANT

For unique project requirements and current plant updates consult a Bredero Shaw representative. Products marked with an asterisk (*) will be coated at that facility in the future.
