

BREDERO SHAW

A SHAWCOR COMPANY

the
**GLOBAL
LEADER**
in pipe coating solutions.

34th Street, Edmonton, AB

PLANT CAPABILITIES SHEET

FEATURES AND BENEFITS

Bredero Shaw's 34th Street, Edmonton, Alberta facility is strategically located to serve the Western Canadian Sedimentary Basin. This provides customers with logistics and transportation savings along with a short term stock pile points that can be used to store the pipe prior to construction.

This facility offers a range of products for the oil and gas industry that includes the industry leading Yellow Jacket[®] cross head extruded polyethylene product, the YJ2K[®] three layer anti-corrosion system and the Insul-8[®] thermal insulation coating. This range of products provides customers with a one stop center for all project coating requirements.

The rail spur located on-site at Edmonton 34th can provide logistical advantages for receipt of bare pipe or load-out of coated pipe.

Anti-Corrosion Coatings

Flow Assurance Coatings

MANUFACTURED PRODUCTS

COATING TYPE	DIAMETER mm (")		LENGTH m (')	
	MIN.	MAX.	MIN.	MAX.

HEALTH & SAFETY

Bredero Shaw is committed to providing a safe and healthy workplace and ensuring that our business activities are conducted in a manner that protects the environment. It is our objective to achieve an Incident and Injury Free workplace, where everyone recognizes that by risking incident or injury, they are putting in jeopardy what they value and those they care for.

BREDERO SHAW: THE GLOBAL LEADER IN PIPE COATING SOLUTIONS

Bredero Shaw is the world leader in pipe coating solutions, with more than 75 years of experience, over 27 pipe coating facilities on 6 continents and the largest team of technical and service specialists in the business. Bredero Shaw offers technologically advanced solutions for anti-corrosion coatings, protective and weight coatings, thermal flow assurance coatings, internal coatings, custom coatings and field joints for both onshore and offshore applications. This broad range of products and services provides Bredero Shaw with the unique capability to service the full spectrum of pipeline protection and flow assurance requirements. Consult your Bredero Shaw representative for your unique project requirements.

The information contained herein is indicative of the types of coatings provided by Bredero Shaw, and is not intended to be a guarantee that a particular coating will be suitable for a given application. Since many unique environmental, operating, and design conditions must be considered, the user shall determine the suitability of the coating for the intended use and assume all the risks and liabilities in connection therewith. Bredero Shaw's liability is stated in our standard conditions of sale.
